

309 high confidence
AOPs

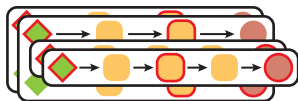

KEs associated with
inorganic cadmium

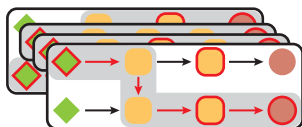

241 AOPs with at least one KE
associated with inorganic cadmium

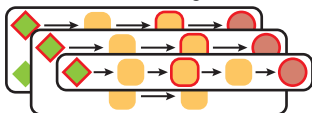

34 AOPs with at least one MIE and one AO
associated with inorganic cadmium

34 AOPs with at least one directed path
between MIE and AO where both are
associated with inorganic cadmium

30 AOPs with coverage score ≥ 0.4

◆ Molecular Initiating Event (MIE)
